

The airways are the property of the American people. The sell offs of those airways being considered this week does violence to the public ownership of said airways. Promises made in the previous ownership regulations of the airways have not been observed. ie: quality programs for children. Programs on radio and television for the most part are intelluctual pablum resulting in the dumbing down of the American public which does not bode well for our future. In other words: DO NOT GO THROUGH WITH THE PLAN UNDER CONSIDERATION THIS WEEK CONCERNING SELLILNG WHAT IS PUBLIC PROPERTY.

Sincerely,
Audrey (Nan)
